

## Packaging for the CPG Industry: An Update on Regulatory and Litigation Developments

**Tuesday, May 12, 2026**  
**3:30 – 4:30 PM ET | Webinar**

From rigid plastic to glass to paper packaging and beyond, CPG companies are facing an increasingly complex maze of restrictions: from Extended Producer Responsibility laws to state postconsumer recycled (PCR) content requirements. This patchwork of state requirements is here to stay and packaging—its components and related claims—continues to be a target of the plaintiff’s bar.

Please join us for a joint presentation with Alston & Bird and Altium Packaging to explore these recent developments, how they may impact your business, and next steps for CPG companies. You will hear about:

- The current EPR landscape and how best to navigate it
- An update on other state packaging law requirements
- The litigation landscape—recent challenges and risk mitigation strategies
- Business side and operational considerations

### Speakers

**Sam Jockel**  
*Partner*  
Alston & Bird

**Angela Spivey**  
*Partner*
