Label Guidelines

Stand out from your competition with customized, professional, high-quality pharmacy labels, toner, and printers that are essential to your pharmacy's operations.

Altium Healthcare supplies pharmacies with high-quality prescription vials, closures, labels, laser printers, toner cartridges and marketing materials at competitive prices. Your pharmacy labels help establish your brand and professional image, so getting the design, colors and construction right is critical. Our staff understands pharmacy labels and we will collaborate with you to design labels that conform to your brand specifications and enhance your image.

- Our thermal and laser labels work with most pharmacy software systems. We have hundreds of different label templates to choose from.
- We have state of the art flexographic, digital and wide format label production departments that utilize the fastest presses with the latest technology. Only AHC can provide hybrid flexo-digital labels that allow you to have an unlimited number of colors in your label.
- We have an in-house graphics team that can customize your label to ensure brand consistency.
- We have the capability to auto-ship labels on a pre-approved schedule, ensuring you never have to remember to reorder.

With our wide range of products and services plus integrated vial, cap, label and toner manufacturing, AHC can provide a level of customer service uncommon in the industry. Let us help you increase your profit margins and maintain a professional image. Our focus is on your pharmacy's needs and the printing services you require.

Get Started with Your Custom Labels

Call us and we will take care of the details. Once your label order is placed, just send us your logo in a vector format if possible and the Pantone colors or a color sample we can match to. If you are already using a label, mail it to us and we can recreate it. Below is an example of file formats that we recommend when sending your logo. The design company who created your logo should be able to supply a vector format as well as Pantone colors.

<h3>Vector </h3>    Best original Adobe Illustrator file format Good file formats that support vector Vector art is scalable without quality loss.	<h3>Not Vector </h3>     Bad file formats that do not support vector. Raster art is made up of pixels that lose quality when scaled.
	

Placing Your Order is Easy.

Below is a checklist we need before our graphics team can begin working on your label.

- your label order paperwork
- your order confirmation, signed and faxed to our label department 1-931-738-3006
- your email address
- your logo (if applicable). Please email to graphicsTN@altiumpkg.com. A vector format is preferable.
- Pantone colors or mail us a label or business card or something tangible we can match color to.

Please note that we cannot accurately match to something scanned or emailed. The design company who created your logo should be able to supply a vector format as well as Pantone colors.

Easy Artwork Approval Website.

Once our graphics team has completed your label artwork, you will be notified via email that an artwork project is available for you to review. Just follow these easy steps to approve the label artwork. The notification will include a link, art.tsd.net.

- Click on the link. If this is the first time you have been on this site, you will set up a password.
- Log on to <https://art.tsd.net>, put in your username and password.
- Once logged in to your account, you will see **Label Art Project**. Click on the small label thumbnail.
- This will bring up a **Project Details** screen. Click on the **light blue square** around the middle of the page to see a high resolution preview of the label artwork.
- After review, close the preview window. If everything is correct, click the **green Approve Artwork** tab that is at the top of the **Project Details** screen. If revisions need to be made, click the **red Deny Artwork** tab and type a reason for the denial. Then submit.

After you have approved the artwork, Altium Healthcare will get an email notification. We can now begin production of your label. That's all you have to do and we will take care of the rest.
